

PARENT SUPPORT PROGRAM

for Multicultural Communities

- 1 Do you have questions about your child's development and would like support on how to help your child?
- 2 Would you like to get connected with other parents who speak your language?
- 3 Do you need support connecting to services or advocating for your child?

WE CAN HELP

Our goal is to:

- Increase access to information about services available through the Regional Center of Orange County and community organizations.
- Empower parents to become active, knowledgeable advocates for their children and increase access to services to have children reach their fullest potential.
- Increase access to trainings that meet the cultural and linguistic needs of diverse families.
- Provide information about developmental screenings for children and educational trainings for parents.

MECCA is a coalition of community-based agencies with a vision of improving the quality of life for underserved multi-ethnic communities.
